Where is Hormeta Mineral Skin Care made? Hormeta Skin Care is manufactured and packaged in Bursins, Switzerland just outside of Geneva. All Hormeta products proudly display the Swiss Cos label, to guarantee all products are genuine Swiss made. The Athena Care Collection uses traditional Greek wisdom to blend the highest quality organic ingredients into a safe and highly effective skin care collection. The primary ingredients consist of pure, natural, Greek botanical oils that actually help to nourish your skin. None of our products contain any harsh chemical ingredients or muscle relaxers whatsoever.

Can I use my derme'llage Skin Care Regimen with my other skin care products and cosmetics? Absolutely, the derme'llage Skin Care Regimen is specially formulated to compliment and enhance the effects any other cosmeceuticals, cosmetics or skin care products you may currently be using. For instance, some people use prescription retinols, like Retin A, which can irritate the skin and cause redness. derme'llage can help alleviate this irritation, thereby enhancing the use of products like Retin A. The Athena Care Collection uses traditional Greek wisdom to blend the highest quality organic ingredients into a safe and highly effective skin care collection. The primary ingredients consist of pure, natural, Greek botanical oils that actually help to nourish your skin. None of our products contain any harsh chemical ingredients or muscle relaxers whatsoever.

What topical skin care products will be used? Our treatment of most skin conditions will include physician grade skin care products, or prescriptive topical agents if needed. We know you will love each and every one of our products. In fact, we are so confident that we back every purchase with a full 60 day bottom-of-the-jar money back guarantee. If for any reason you have used your product and are not completely satisfied, you may return the empty jar for a full refund.
